Northern Serengeti National Park

Accommodation

Baobab Migration Luxury Camp

Inside

Northern Serengeti National Park

Explore the Northern Serengeti and get to know one of the park's most beautiful corners. Wildlife viewing is excellent all through the year, but that is especially the case whenever the migration passes through. This is also the area of the park that sees the fewest visitors, which means you can enjoy the river, grasslands, rocky scenery and the animals without interruption.

Accommodation **Baobab Migration Luxury Camp**

Tented camp Inside Northern Serengeti National Park

Baobab Migration Luxury Camp will be your base in the Northern Serengeti and it's a fine place to stay. With no other camps or lodges close by, it really feels like you're out in your own corner of the African wilderness. All sorts of wildlife pass through the camp, never more so than when the great migration is in the area. The excellent safari tents and dining or lounge area are good vantage points for Serengeti life: listen for lions as you fall asleep under canvas at night.

Day 6

Ngorongoro Crater

Accommodation

Farm House Valley

Today you'll visit Ngorongoro Crater, one of the most beautiful natural sights in Africa, a place where you'll experience otherworldly beauty with extraordinary wildlife. Watch as, from above, morning mist rolls up and over the crater rim, and notice how the steep walls suggest a place unlike any other. Down below on the crater floor, explore a lost world preserved in a state of pristine isolation, one that shelters lions and hyenas, elephants and black rhinos, flamingos and golden jackals. There are also forests, hippo-filled lakes, a salt pan and hyena dens, and you'll never lose the sense that you've stumbled into a safari theme park where everything's wild.

Tarangire National Park

Accommodation

Tarangire Greenland Retreat

Inside

Tarangire National Park

If you've never been to Tarangire (and even if you have) you're in for a real treat. Tarangire is filled with giants – baobab trees all across the park, as well as elephants, lots of them. But that's just the beginning. Of the big cats, you'll probably see lions, and cheetahs and leopards are around, too. And it's impossible to miss the wildebeest, giraffes, hippos, buffaloes and zebras. Your backdrop for all of this is one of the prettiest in northern Tanzania, with a memorable mix of river woodland, open plains and rolling hills. And some vantage points to take it all in.
