Manyara's Secret

This is where all of your planning becomes a reality: your safari starts now. Tanzania is such a wonderful country when it comes to wildlife and beautiful landscapes. After we greet you and answer any questions you might have, we'll take great pleasure in taking you out and showing you what we mean.

We think you'll be impressed with Tarangire National Park. Most visitors love the distinct shapes of the baobab trees silhouetted against the sky that make this place feel like a fairy-tale African landscape. Or visitors remember the elephants that roam in family bands everywhere throughout the park. If you're lucky, you'll also encounter the big cats – lions especially, but also cheetahs and leopards – that are always a possibility here. And there's a fair degree of certainty that you will tick wildebeest, giraffe, hippo, buffalo and zebra off your wildlife-viewing list.

Accommodation **Manyara's Secret**

Lodge

Surprisingly few of the lodges and camps that surround Lake Manyara National Park take advantage of the lake views, but Manyara's Secret makes up for that. In a special position on the eastern shore of the lake, this place has large, luxury villas, multiple swimming pools (some villas have their own), and terrific food. Get a massage, meet the local Maasai or simply soak up the views.

Day 2

Ngorongoro Crater

Accommodation

Manyara's Secret

You'll learn why magical Ngorongoro is unlike anywhere else in Africa. Cloud forests encircle the crater rim, and the view out across the caldera of this former volcano – quite apart from the altitude – will leave you gasping for air. Your drive down a steep trail carries you onto the crater floor where a unique wildlife offering is added to the sheer beauty of the experience. You'll share the sunken ecosystem of the crater floor with hyenas, lions, elephants, black rhinos and hippos. An ecosystem that has formed in the crater in the millennia since the volcano wrought its terrible fury upon the land. It could just be one of your best safari days ever.

Day 3

Lake Manyara National Park

You're going to love Lake Manyara National Park because it promises experiences you just can't get elsewhere. For example, this is one of the most compact parks in Tanzania's north: the park consists of a narrow strip of forest shadowed by vast Lake Manyara on one side and the cliffs of the Rift Valley escarpment on the other. The park is known for its large elephant and baboon populations, and part of the excitement of visiting here is never quite knowing when you're going to come face-to-face with an elephant. And then there are the tree-climbing lions for which the park is famous: this is one of very few places in Africa where lions routinely climb (and spend much of their time up in) trees.

Your Tanzanian safari draws to a close, and we're sure that you will have enjoyed it as much as we have.
